ALUGLASS JAR

GAIA ALUGLASS

This glass jar for small capacities is paired with our prestige double-wall aluminium cap, designed to be compatible with the aluminium recycling stream.

The cap contains more than 95% aluminium, and its double-wall structure is paired with a thick-walled glass jar, combining premium aesthetics with sustainability.

PRODUCT DESCRIPTION

Construction & Materials:

- Cap 95% aluminium: 2 pieces in anodised aluminium cap with laser logo, triseal gasket.
- Glass Jar: Soda lime pressed glass. Compatible with glass recycling stream. 2 capacities available
